Brainbric Innovations Pvt. Ltd.
Software · AI · Product Development · Industry Training

Industry Readiness Programs 2026–27

Hands-on training, real projects and career readiness for Engineering, Polytechnic and Arts & Science students, delivered by a company that builds software every day.

160
students trained across three institutions

1 day – 4 weeks
program formats to fit your academic calendar

From ₹150
per student, all-inclusive pricing

Prepared for

Attention
Principal · Placement Officer · Head of Department

WHY THIS MATTERS

Students graduate with marks. Employers hire for skills.

Recruiters now expect freshers to have built something real, use AI tools confidently and present their work. Our programs close that gap inside your campus, in your timetable, at a fee that does not burden students or the institution.

Practical, not theory

Every format ends in something students built themselves: a project, a portfolio piece or a pitch.

AI built in

Students learn to use AI tools the way working developers, analysts and marketers use them today.

Run by practitioners

Sessions are led by the people who deliver software, apps and AI projects for Brainbric's clients.

RECENTLY DELIVERED

Trusted by institutions in the Coimbatore region

Institution	Program	Students	Participants
Sri Ramakrishna Polytechnic College	One-month industry training program	Diploma	50
Nanjiah Lingammal Polytechnic College	One-day industry workshop	Diploma	60
SNS College of Arts & Science	Industry workshop	MCA (postgraduate)	50
Total			**160**

References from these institutions are available on request.

WHO WE ARE

Brainbric Innovations Pvt. Ltd. is a technology company that designs and builds software, mobile apps, AI solutions and digital products for businesses in India and abroad. Training is how we share that working knowledge with the next generation of professionals.

- Software and mobile app development
- AI and automation solutions
- UI/UX design and product development
- Data analytics and digital marketing

PROGRAMS

Five formats. Start small, go deeper when you are ready.

Each format stands on its own. Many institutions begin with a one-day session and move to a bootcamp or internship for the students who want more.

Program	Duration	Students leave with	Fee per student
Industry Insight Talk Career and AI awareness for a full batch	90 minutes	A clear picture of industry roles, skills and hiring	Complimentary first visit
Industry Awareness Session Emerging tech, AI, resume and LinkedIn	1 day	Participation certificate, resume and LinkedIn upgrade	**₹150**
Skill Workshop One domain, hands-on	2 days	A working mini-project and a certificate	**₹249**
Industry Readiness & Innovation Bootcamp Most chosen Domain training plus a full project	1 week	A portfolio project, presentation experience, completion certificate	**₹450**
Industry Internship Program Work on a live-style project with mentors	4 weeks	Internship certificate, a complete project, review and career guidance	**₹1,499**

Faculty Development Program

Two days on AI tools for teaching, research and administration, and on current industry practice in the faculty's domain.

₹7,500 per batch of up to 30 faculty · complimentary with an annual partnership

Every format includes

- Trainers, learning material and all software (free tools only)
- Certificates for every participant
- An institution report for your records (see page 6)
- Pre- and post-program assessment

WHAT HAPPENS IN EACH PROGRAM

Planned to the hour, adapted to your batch

Industry Awareness Session · 1 day

09:30	Where the industry is going: AI, automation and new roles
10:45	Live demo: how a real app is built with AI tools
12:00	What recruiters look for in freshers
13:30	Resume clinic: students rebuild their resume
14:45	LinkedIn profile upgrade, done live
15:45	Career paths Q&A and certificates

Skill Workshop · 2 days

Day 1	Domain foundations, tools set-up, guided exercises
Day 2	Build a mini-project in teams, demo and certificates

Innovation Bootcamp · 1 week

Day 1	Industry readiness and emerging technology overview
Day 2	Domain learning I
Day 3	Domain learning II
Day 4	Practical workshop and skill building
Day 5	Project development in teams
Day 6	Project completion with mentoring
Day 7	Presentations, evaluation, career guidance, certificates

Industry Internship · 4 weeks

Week 1	Domain training and tools
Week 2	Requirement study and design of a real-world project
Week 3	Build with weekly mentor reviews
Week 4	Testing, documentation, demo day, internship certificate

Flexible delivery. Programs run on campus, department-wise or institution-wide. Departments can be combined to reach the minimum batch, and the internship can run alongside regular classes or during vacation.

DOMAINS

Seven domains, each ending in a real project

Domain	Key topics	Project examples
AI & Generative AI New	AI fundamentals, prompt engineering, AI tools for productivity, building with AI APIs, chatbots, responsible AI	College FAQ chatbot, AI study assistant, resume screening tool

BCA, BSc CS / IT, MCA, MSc	Full Stack, Mobile App, UI/UX, AI & Generative AI
BCom, BBA, MBA, BSc Maths and Statistics	Data Analytics, Digital Marketing, Entrepreneurship
BA, BSc Visual Communication, Media	Digital Marketing, UI/UX Design

WHAT YOUR INSTITUTION RECEIVES

More than a session: a record you can use

Within seven days of every program we send an institution report, ready to file for accreditation and reporting.

Institution report pack

- Program summary, schedule and trainer details
- Attendance list and certificate register
- Pre- and post-assessment results
- Student feedback analysis
- Photographs of sessions and project demos
- List of projects built, with team names

Useful for your documentation

The programs and the report can support your records of value-added and certificate courses, industry interaction, skill development and internships, as used in NAAC, NBA, NIRF and IIC reporting.

Classification for any framework is at the institution's discretion.

Benefits to students

- Hands-on skills in current tools and AI
- A real project for their portfolio and resume
- Confidence presenting and working in teams
- Internship and placement readiness
- Career guidance from working professionals

Benefits to the institution

- Stronger placement readiness and outcomes
- Active industry–academia collaboration
- Higher student engagement
- Innovation and entrepreneurship culture
- A partner for fests, hackathons and project expos

HOW WE WORK WITH YOU

1. **A 20-minute call**
   We understand your departments, batch sizes and calendar.
2. **A program plan within 48 hours**
   Format, domain, dates, schedule and final fee in writing.
3. **Delivery on your campus**
   Our trainers arrive prepared; your faculty coordinator just opens the hall.
4. **Report within 7 days**
   The full institution report pack, certificates and results.

INVESTMENT

Simple per-student fees, no hidden costs

Program	Duration	Fee per student	Example: 60 students
Industry Insight Talk	90 minutes	Complimentary	–
Industry Awareness Session	1 day	₹150	₹9,000
Skill Workshop	2 days	₹249	₹14,940
Industry Readiness & Innovation Bootcamp	1 week	**₹450**	**₹27,000**
Industry Internship Program	4 weeks	₹1,499	₹89,940
Faculty Development Program	2 days	₹7,500 per batch	–

Minimum batch
50 students; departments and years may be combined.

Larger batches
10% off for 150 or more students in one program.

Fees include
Training, material, certificates, assessments and the report.

Terms

Payment	30% to confirm dates, 70% after the program is delivered
Taxes	Fees are inclusive of GST
Travel	Trainers' travel is covered by Brainbric, wherever the institution is located
Food and stay	For institutions outside Coimbatore district, the institution provides food and accommodation for the trainers during the program
From the institution	A hall or lab, projector and sound, internet, student laptops or lab systems, and one faculty coordinator
Validity	This proposal is valid for 60 days from the date of issue

WHY BRAINBRIC

A training partner that actually builds technology

- Curriculum drawn from live client projects
- AI built into every domain, not an add-on
- Every format ends in something students built
- Proven delivery for diploma, UG and PG students
- Fees designed to be affordable for every student
- Pay most of the fee only after delivery
- Documentation ready for accreditation records
- One partner from a 90-minute talk to a 4-week internship

Annual Campus Partnership

Best value

For institutions that want a program every semester.

- 15% off every program fee for the academic year
- A complimentary Insight Talk for every new batch
- A complimentary Faculty Development Program
- Priority scheduling around your academic calendar
- Support for your symposium, hackathon or project expo
- One consolidated year-end report

NEXT STEP

Book a complimentary Industry Insight Talk

Let your students and faculty see how we teach before you commit to anything. Call or email us with two preferred dates and we will confirm within a day.
